1. About This Guide

1.1 Welcome

Welcome to **Alberto Watch Company**, a full-service watch repair, appraisal and retail store offering the finest selection of luxury timepieces. Our website lets you explore our watches and clocks, compare prices, learn about watch technology, find your nearest store and get in touch with us, from any computer, tablet or phone.

This guide explains every part of the website step by step, so you can find what you need quickly and with confidence.

1.2 Who this guide is for

This guide is written for visitors and customers. No technical knowledge is needed. If you can use a web browser, you can use this website.

1.3 What you can do on the website

- Browse watches and clocks by **product line-up**: Vintage, Luxury, Smart Watches, Sports and Clocks.
- Open a **detail window** for any watch to see its specifications and price.
- Check the complete **Price List** and search or filter it.
- Learn about the **technology** inside modern watches.
- Find an Alberto **store** near you, with address, phone number and opening hours.
- Read answers to common questions about warranty, repair and appraisal.
- View the **Gallery** of watch images.
- Contact us with an enquiry, repair request or appraisal appointment request.

1.4 How this guide is written

Style	Meaning
Bold text	The name of a button, menu item, page or field you can see on the screen
Numbered list	Steps to follow in order
Tip	A shortcut or helpful suggestion
Note	Important information to be aware of

2. Getting Started

2.1 What you need

Item	Requirement
Device	Computer, laptop, tablet or smartphone
Browser	A current version of Google Chrome, Mozilla Firefox, Microsoft Edge or Safari
Internet connection	Required. The website loads its styles, fonts and scripts from the internet
Location permission (optional)	Allows the scrolling bar at the bottom to show your location
JavaScript	Must be enabled (it is on by default in all modern browsers)

2.2 Opening the website

1. Open your web browser.
2. Type the website address into the address bar and press **Enter**.
3. The **Home** page appears. Your browser may ask for permission to use your location (see section 13.3).

2.3 A tour of the screen

Every page of the website has the same layout, so once you know it you will feel at home everywhere.

Area	Where	What it does
Logo	Top left	Shows the Alberto Watch Company name. Click it to return to Home
Visitor counter	Top right, beside the logo	Shows the number of visits to the website
Main menu	Below the logo	Takes you to every main page of the website
Page area	Centre	Shows the page you have chosen
Footer	End of the page	Company address, email, phone and extra links: Site Map, Gallery, About Us, Contact Us
Scrolling bar (ticker)	Always at the bottom of the window	Shows the current date, time and your location

2.4 Pages at a glance

Menu item	What you will find
Home	Welcome banner, the five product line-ups and company highlights
Products	All watches and clocks, grouped by line-up, with a detail window for each
Price List	A searchable table showing the price of every item
Technology	Plain-language explanations of how modern watches work
Store Locator	Alberto stores by city, with address, phone and hours
Support	Frequently asked questions and support contact details
Gallery	Pictures of all our watches and clocks
About Us	Who we are and how to reach us
Contact Us	Our details and an enquiry form
Site Map (footer)	A list of links to every page

2.5 Quick start: your first five minutes

1. On the **Home** page, click **Shop Collections** to see our watches.
2. Choose a line-up tab such as **Luxury** or **Smart Watches**.
3. Click **View Details** on a watch you like to see its specifications and price.
4. Click **Find in Store** to see where you can try it on.
5. Choose **Contact Us** from the menu if you have any questions.

3. Navigating the Website

3.1 Using the main menu

The main menu runs across the top of every page. Click any item to go to that page. The current page fades out and the new page fades in, so you always see a smooth change.

The menu items, from left to right, are: **Home**, **Products**, **Price List**, **Technology**, **Store Locator**, **Support**, **Gallery**, **About Us** and **Contact Us**.

3.2 What the menu colours mean

What you see	Meaning
Menu item on a dark green background	A page you are not currently viewing
Item turns light gold when you point at it	You are about to click it; an underline also appears
Item stays solid gold	This is the page you are on now

3.3 Moving between pages

- Click the **logo** at any time to go back to Home.
- Use your browser's **Back** and **Forward** buttons to move between pages you have already visited. The website remembers each page.
- You can **bookmark** any page. Opening the bookmark later takes you straight to that page.
- Pages open at the top, so you never have to scroll up first.

3.4 Footer links

At the end of every page, the footer repeats links to **Site Map**, **Gallery**, **About Us** and **Contact Us**, together with our address, email address and phone number.

3.5 Using the keyboard

Key	Action
Tab	Move to the next link, button or field
Shift + Tab	Move to the previous item
Enter	Open the selected item, such as a line-up card or a gallery image
Esc	Close an open detail window or image viewer
Ctrl + Plus / Ctrl + Minus	Make the page larger or smaller (Cmd on Mac)

4. The Home Page

The Home page is your starting point. From top to bottom it contains:

Section	What it shows	What you can do
Welcome banner	Our headline "Time, perfected.", a short description of the company and a large watch picture	Click **Shop Collections** to view products or **Find a Store** to see our locations
Our Product Line-ups	One card for each line-up: Vintage, Luxury, Smart Watches, Sports and Clocks	Click or press Enter on a card to open that line-up in Products
Company highlights	Years of craft, featured timepieces, store locations and warranty length	Information only

> **Tip** Clicking a line-up card on the Home page takes you directly to that line-up, with the correct tab already selected.

5. Browsing Products

5.1 Choosing a line-up

Our watches and clocks are grouped into five line-ups:

Line-up	What you will find
Vintage	Classic, heritage-style watches, including hand-wound models and a pocket watch
Luxury	Fine timepieces from leading luxury makers and our own signature pieces
Smart Watches	Connected watches with notifications, health tracking and more
Sports	Tough watches for diving, racing and outdoor adventure
Clocks	Mantel, table, wall and longcase clocks for the home

1. Choose **Products** from the main menu.
2. Click a tab at the top of the page: **Vintage**, **Luxury**, **Smart Watches**, **Sports** or **Clocks**. The selected tab turns dark green.

3. The complete list for that line-up appears below. Each card shows a picture, the brand, the model name and the price.

5.2 Viewing watch details

1. Click **View Details** on any product card.
2. A detail window opens in front of the page.
3. Read the description and specifications, then close the window.

The detail window contains:

Item	Description
Title	The brand and model name
Picture	An illustration of the watch or clock
Line-up badge	The line-up the item belongs to
Description	A short overview of the item
Brand	The maker of the watch
Movement	How it keeps time, such as Automatic, Quartz or Eco-Drive
Size	Case diameter for watches, height or width for clocks
Strap / Finish	The strap, bracelet or material
Water resistance	How deep the watch can safely go
Price	Shown in large type at the bottom right

Two buttons appear at the bottom: **Find in Store** takes you to the Store Locator, and **Close** returns you to the page.

> **Tip** You can also close the detail window by clicking the **X** in the top corner, pressing **Esc**, or clicking anywhere outside the window.

6. Using the Price List

The **Price List** shows every watch and clock in one table, so you can compare prices easily. All prices are shown in US dollars (USD).

6.1 Reading the table

Column	Meaning
#	The item number
Brand	The maker
Model	The model name
Line-up	Vintage, Luxury, Smart Watches, Sports or Clocks
Price	The price in USD, aligned to the right
Details	Opens the same detail window you see in Products

6.2 Searching and filtering

1. Choose **Price List** from the menu.
2. To search, type a brand or model name in the search box, for example "Rolex". The table updates as you type.
3. To narrow by type, choose a line-up from the drop-down list on the right. Select **All line-ups** to see everything again.
4. Click **Details** on any row to see full information.

> **Note** If no item matches your search, the message "No watches match your search." appears. Clear the search box or choose **All line-ups** to see the full list.

> **Tip** On a phone, the table can be swiped sideways to see every column.

7. Learning About Watch Technology

The **Technology** page explains, in plain language, the engineering found in the watches we sell. Each topic has its own card:

Topic	In short
Automatic Movement	Powered by the motion of your wrist; no battery needed
Quartz Precision	Battery-powered and very accurate
Eco-Drive Solar	Powered by any light; no battery changes
Sapphire Crystal	A very hard, scratch-resistant watch glass
Water Resistance	Protection from splashes up to deep-sea diving
Smart Connectivity	Bluetooth, GPS, payments and health tracking on your wrist

Use this page to decide which type of watch suits your lifestyle before you browse the products.

8. Finding a Store

The **Store Locator** lists our stores with their address, telephone number and opening hours. Visit us to try on watches, ask for advice, or arrange a repair or appraisal.

1. Choose **Store Locator** from the menu.
2. By default, all stores are shown. To see stores in one city, choose it from the drop-down list, for example **Karachi**.
3. Read the address, phone number and opening hours on the store card.

Each store card shows:

- The store name
- The street address
- The telephone number
- The opening hours

> **Tip** Call the store before your visit to confirm opening hours, especially on public holidays or if you are bringing a watch for repair.

9. Getting Support

The **Support** page answers common questions about our service. On the left is a list of questions. On the right is a card with our support email address and phone number.

1. Choose **Support** from the menu.
2. Click a question to open its answer. Click it again to close it. Opening another question closes the previous one.

Topics covered include:

- How long the warranty lasts
- Repairing watches bought elsewhere
- Appraisals for insurance or resale
- How often a mechanical watch should be serviced
- The return policy

If you cannot find your answer, click **Contact Us** on the right-hand card to send us a message.

10. The Gallery

The **Gallery** shows pictures of all our watches and clocks in a grid, each with its name below.

1. Choose **Gallery** from the menu, or from the footer.
2. Point at a picture to see it lift and zoom slightly.
3. Click a picture to open a larger version in a viewing window. The name of the watch appears at the top.
4. Close the window with the **X**, the **Esc** key, or by clicking outside it.

11. About Us and Contact Us

11.1 About Us

The **About Us** page tells you who we are: a full-service watch repair, appraisal and retail store. It lists our services, which are watch repair and restoration, certified appraisals, and the sale of new, vintage and smart watches. A **Company Details** card shows our email address, address and contact number.

11.2 Our contact details

Detail	Information
Email	info@albertowatch.com
Support email	support@albertowatch.com
Address	Block 4, Clifton, Karachi, Pakistan
Telephone	+92 21 3555 0100
Opening hours	Monday to Saturday, 11:00 to 21:00

11.3 Sending us a message

1. Choose **Contact Us** from the menu or the footer.
2. Type your name in the **Name** field.
3. Type your email address in the **Email** field.
4. Choose the reason for your message from the **Subject** list.
5. Write your message in the **Message** box.
6. Click **Send Message**.

Field	Required	What to enter
Name	Yes	Your full name
Email	Yes	A valid email address, such as name@example.com
Subject	Choose one	General enquiry, Repair request, Appraisal appointment or Product information
Message	Yes	Your question or request, at least 10 characters

If something needs correcting

If a field is empty or incorrect, it is highlighted in red with a short message beneath it. Correct the field and click **Send Message** again.

Message you may see	What to do
Please enter your name.	Type your name in the Name field
Please enter a valid email.	Check the address includes "@" and a domain, such as .com
Please write at least 10 characters.	Add more detail to your message

When your message is accepted, a green confirmation message appears: "Thank you! Your message has been received. We will reply within one working day." The form clears itself and the confirmation disappears after a few seconds.

> **Note** For urgent matters, such as a repair needed quickly, please call us on +92 21 3555 0100 instead of using the form.

12. The Site Map

The **Site Map** is an index of the whole website. Open it from the **Site Map** link in the footer. It has three groups:

Group	Links
Main	Home, Products, Price List, Technology
Product Line-ups	Vintage, Luxury, Smart Watches, Sports, Clocks. Each link opens Products with that tab selected
Company	Store Locator, Support, Gallery, About Us, Contact Us

Use the Site Map whenever you are unsure where to find something.

13. Visitor Counter and Scrolling Bar

13.1 Visitor counter

In the top-right corner, beside the logo, a small gold-outlined box labelled **Visitors** shows how many visits the website has had. The number goes up when you open the website in a new browser session. Simply reloading the page does not increase it.

13.2 Scrolling bar

The bar fixed to the bottom of the window scrolls continuously from right to left. It shows:

- A welcome message
- **Date:** today's full date
- **Time:** the current time, updating every second
- **Location:** your approximate position as latitude and longitude

> **Tip** Point at the bar with your mouse to pause it, so you can read it comfortably. Move away and it continues.

13.3 Allowing your location

To show your location, your browser asks permission the first time you visit. Your location is used only to display it in the scrolling bar.

What the bar says	What it means	What to do
Detecting location...	The browser is finding your position	Wait a few seconds
Lat ..., Long ...	Your location was found	Nothing; it is working
Location access denied	You chose Block when asked	Allow location (see steps below)
Location unavailable	The device could not determine your position	Check that location services are on, then reload
Geolocation not supported by this browser	Your browser cannot provide location	Try a current browser

To allow location after blocking it:

1. Click the **padlock** or **settings** icon at the left of the address bar.
2. Find **Location** and change it to **Allow**.
3. Reload the page.

14. Using a Phone or Tablet

The website adapts automatically to your screen size. Everything described in this guide works on phones and tablets, with a few differences:

Feature	On a phone or tablet
Main menu	Appears as a **menu button** (three horizontal lines) at the top right of the menu bar. Tap it to open the list, tap an item to go to that page; the menu closes by itself
Product cards	Shown one or two per row instead of four
Price List	Swipe sideways to see all columns
Gallery	Pictures shown two per row
Pointing (hover)	Replaced by tapping; the colour change appears as you tap
Scrolling bar	Stays at the bottom of the screen; you cannot pause it by pointing

> **Tip** Turn your phone sideways (landscape) for a wider view of tables and the Price List.

15. Troubleshooting

Problem	Possible cause	Solution
The page looks plain, with no colours or layout	The internet connection is slow or interrupted, so the styles did not load	Check your connection and reload the page (Ctrl + F5)
Menu items or buttons do nothing	JavaScript is disabled, or scripts did not load	Enable JavaScript in your browser and reload
No products appear	The page did not finish loading	Reload the page and wait a moment
The scrolling bar shows "Location access denied"	Location permission was blocked	Allow location as described in section 13.3
The scrolling bar does not move	Your device uses reduced motion, or the bar is paused	Move your mouse away from the bar; check your device's motion settings
The Price List is empty	The search box or line-up filter hides everything	Clear the search box and choose **All line-ups**
A detail window will not close	The page did not finish loading properly	Press **Esc**, or reload the page
The contact form shows red messages	A field is empty or incorrect	Follow the message under each field
Text is too small to read	Screen or browser size	Zoom in with Ctrl and Plus (Cmd and Plus on Mac)
The visitor counter did not change after reload	It counts once per browser session	This is normal

16. Frequently Asked Questions

Question	Answer
Can I buy a watch directly on the website?	The website is for browsing and information. To buy, visit one of our stores (see **Store Locator**) or contact us.
Are the prices in the Price List final?	Prices are shown in US dollars. Please confirm the current price with your nearest store before purchasing.
Can I see a watch before buying it?	Yes. Use **Find in Store** in the detail window to locate a store and visit us.
Do you repair watches bought elsewhere?	Yes. Our workshop services many brands. See the **Support** page.
Can you value my watch?	Yes. We offer certified appraisals for insurance or resale. Request an appointment through **Contact Us** and choose "Appraisal appointment".
Why does the website ask for my location?	Only to show your approximate position in the scrolling bar. You can refuse without affecting anything else.
Which browsers can I use?	Current versions of Chrome, Firefox, Edge and Safari.

17. Glossary

Term	Meaning
Line-up	A group of related products, such as Luxury or Sports
Movement	The mechanism inside a watch that keeps time
Automatic	A mechanical movement wound by the motion of your wrist
Manual winding	A mechanical movement wound by turning the crown by hand
Quartz	A battery-powered movement known for accuracy
Eco-Drive	Citizen's light-powered technology; no battery change is needed
Chronograph	A watch with a built-in stopwatch, usually with small sub-dials
GMT	A second hand or display that shows the time in another time zone
Tourbillon	A rotating cage that improves the accuracy of a mechanical watch and is a mark of fine craftsmanship
Sapphire crystal	A very hard, scratch-resistant watch glass
Water resistance	How deep a watch can safely go, stated in metres
Appraisal	A professional written valuation of a watch
Ticker	The scrolling bar at the bottom of the website

18. Getting Help

If this guide does not answer your question, please contact us:

Method	Details
General enquiries	info@albertowatch.com
Customer support	support@albertowatch.com
Telephone	+92 21 3555 0100
Visit us	Block 4, Clifton, Karachi, Pakistan (Monday to Saturday, 11:00 to 21:00)
Online	Use the form on the **Contact Us** page

Thank you for visiting Alberto Watch Company.
